Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Status of the claims: Claims 15-20, 27 and 28 are currently pending.

Priority: This application is a 371 of PCT/JP03/02422 (03/03/2003) and claims foreign priority to JAPAN 2002057419 (03/04/2002).

RESPONSE TO APPLICANT ARGUMENTS/AMENDMENTS

Applicant has amended the claims to introduce the following new limitation:

wherein said process for extracting a rare earth metal ion does not include the use of a complex organoboron compound or a substituted or unsubstituted polyethylene glycol.

Claim Rejections - 35 USC § 103

1. Claims 15-20 were rejected under 35 U.S.C. 103(a) as being unpatentable over Delangle et al. (J. Org. Chem, 1996, v. 61, p. 8904-14) in view of Alberts et al. (J. Am. Chem. Soc., 1979, v. 101, p.3545-53).

Based on the new limitations, this rejection is **withdrawn**.

2. Claims 15-20 and 27-28 are rejected under 35 U.S.C. 103(a) as being unpatentable over Laskorin et al. (CAPLUS Abstract of Radiokhimiya (1984), 26(2), 161-6) in view of Romanovskiy et al. (US 6,258,333).

Based on the new limitations, this rejection is **withdrawn**.

NEW CLAIM REJECTIONS NECESSITATED BY AMENDMENT

Claim Rejections - 35 USC § 112

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claims 15-20, and 27-28 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Applicant added the following new limitation without identifying where support for it can be found in the original disclosure:

wherein said process for extracting a rare earth metal ion does not include the use of a complex organoboron compound or a substituted or unsubstituted polyethylene glycol.

The examiner has searched the specification and could not find such language or representative species to support this new subgenus. This type of amendment to the claims is addressed in the MPEP § 2173.05(i):

Any negative limitation or exclusionary proviso must have basis in the original disclosure. If alternative elements are positively recited in the specification, they may be explicitly excluded in the claims. See *In re Johnson*, 558 F.2d 1008, 1019, 194 USPQ 187, 196 (CCPA 1977) ("[the] specification, having described the whole, necessarily described the part remaining."). See also *Ex parte Grasselli*, 231 USPQ 393 (Bd. App. 1983), *aff'd mem.*, 738 F.2d 453 (Fed. Cir. 1984). The mere absence of a positive recitation is not basis for an exclusion. Any claim containing a negative limitation which does not have basis in the original disclosure should be rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement.

One of ordinary skill in the art would not have recognized that the inventor was in possession of the invention as claimed in view of the disclosure as filed because the claims and teachings do not reference the negative limitations, nor would one of ordinary skill in the art appreciate that applicants possessed such a limitation.

Conclusion

The claims are not in condition for allowance. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
